

### **2.3.1 STUDENT CENTRIC METHODS, SUCH AS EXPERIENTIAL LEARNING, PARTICIPATIVE LEARNING AND PROBLEM-SOLVING METHODOLOGIES ARE USED FOR ENHANCING LEARNING EXPERIENCES**

Student centred learning gives students an opportunity to decide two things: what material they learn and how they learn. A right blend of traditional and modern methods is employed in the college which is offered to students to make learning student-centric. The methodologies such as experiential learning, participative learning and problem-solving are adopted to ensure that the vision of the college is realized which directly or indirectly motivates its instructors and learners. The members of faculty have been supporting students of different learning styles through various student-centric teaching processes.

Our institution adopts various ways to enhance the classroom learning experience of students by providing blended traditional teaching methods along with ICT-enabled classes.

Departments provide an effective platform for students to develop the latest skills, knowledge, attitude, values to shape their behaviour in proper manner. The department conducts innovative programs which stimulate the creative ability of students and provide them a platform to nurture problem-solving skills and ensure participative learning. The department implements student-centric methods of enhancing the lifelong learning skills of students.

Interactive method: The faculty members make learning interactive by motivating student participation in group discussion, role-play, subject quiz, news analysis and discussion on current affairs.

#### **Experiential Learning:**

- Laboratory Sessions are conducted with content beyond syllabus experiments.
- The institute arranges industrial/field visits which enable the students to leverage their knowledge of practical aspects of their studies.
- The institution facilitates the students to take up Internships in various industries on emerging trends to gain practical experience. Also, the teachers encourage the students to attend the value-added programs to facilitate collaborative learning.
- Students are taught to present a seminar on a specific topic to demonstrate their proficiency in the presentation abilities.
- Guest lectures and other activities are conducted by the departments to help students for augmenting their learning skills, leadership skills and academic knowledge.

### **Participative Learning:**

In addition to the traditional teaching-learning methods, the institute is providing innovative student-centric methods by providing participative learning environment created in the classroom for the students to actively interact during the lectures through

- Power point & poster presentations
- Mock interviews
- Workshops
- Group Discussions
- Viva voce method
- Quizzes
- Seminars
- Industrial visits and internships facilitate acquiring necessary skills
- Activities by Departmental Associations
- NSS activities
- Cultural and Sports events

### **Self- Learning:**

- Students undertake self-learning through the content that can be accessed from the college library.
- Students can register for MOOC's programs.

### **Problem-Solving Methodology:**

As part of the curriculum and assessment, the following methods are adopted:

- Summer internship projects, community-oriented projects.
- Final year projects at undergraduate and post graduate levels.
- The departments conduct tutorial classes for students which gives strength to regular teaching learning process.
- Assigning group assignments.

All these efforts would improve the challenge of student's critical thinking, analytical thinking, and design capabilities.
