ABOUT COLLEGE

Samata Degree College, Affiliated to Andhra University and Approved by AICTE was established in 1992 and has been offering holistic education for the last 31 years. Samata offers BSc, BBA, BCA, B.Com, MSc. And MBA courses. Besides a robust teaching pedagogy, Samata Degree College is also a leader in research and innovation with recognised research cell affiliated to Andhra University. Focus is given to activities beyond academics which is evident from its infrastructure, extracurricular activities, and Sports recognitions. The placement at Samata Degree College is varied, with recruitment options both in corporates and public sector as well as entrepreneurship.

ABOUT THE RESEARCH CELL

The Research Cell also organizes workshops, seminars, and guest lectures on various research topics. These events provide students with the opportunity to learn from experts and network with other researchers. The Research Cell's efforts have resulted in a significant increase in the number of research publications by Samata Degree College faculty and students. The Cell has also played a key role in attracting research funding from various government and non-government agencies.

ABOUT THE PROGRAM,

This seminar explores the power of surveys in research! Delve into various survey methods, from in-person interviews to online questionnaires. Learn how to design effective questions, gather reliable data, and unlock valuable insights to inform your research endeavors.

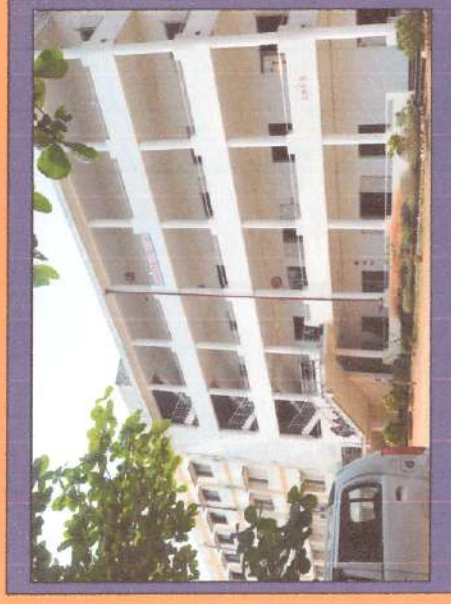

TOPICS COVERED

Contents of the course would touch up the following aspects, to achieve the objectives:

- Understanding Surveys
- Designing Effective Surveys
- Sampling and Survey Administration
- Data Analysis and Interpretation
- Reporting and Visualization

PROGRAMME REPORT

Programme Name	A Research Seminar on Data Collection Methodologies Using Surveys
Resource Person	Mr. B. Ashok, Assistant Professor Gayatri College Visakhapatnam., contact no. 9885983216; email id: ashokbotta@gmail.com
Date of Activity	22/04/2021
Organized by	Samata Degree College
Venue	Seminar Hall-1
No of Students Attended	33

Objectives:

- Equip Students with a comprehensive understanding of the use of surveys as a data collection method.
- Develop critical thinking skills to determine the appropriateness of surveys for specific research questions.
- Master the design and implementation of effective surveys for high-quality data collection.
- Analyze and interpret survey data accurately and reliably to draw meaningful conclusions.

Topics Covered:

Understanding Surveys:

- Types of surveys (online, offline, questionnaire-based, interview-based, etc.) and their strengths and weaknesses.
- Identifying the advantages and limitations of using surveys compared to other research methods.
- Determining when surveys are the most appropriate tool for a given research question.

Designing Effective Surveys:

- Formulating clear and concise research questions and objectives to guide survey development.

alwar das group
free mind through education

- Understanding different types of questions (closed-ended, open-ended, Likert scale, etc.) and choosing the appropriate type for each question.

Sampling and Survey Administration:

- Understanding the importance of random sampling and avoiding common sampling biases.
- Identifying and accessing the target population for the survey.
- Choosing appropriate methods for administering the survey (e-Mail, online platforms, face-to-face interviews, etc.).
- Maximizing response rates through effective survey distribution and follow-up strategies.
- .

Reporting and Visualization:

- Presenting survey findings in a clear, concise, and visually appealing manner.
- Writing an effective report that summarizes the research question, methodology, findings, and conclusions.
- Utilizing charts, graphs, and other visuals to effectively communicate insights to different audiences.

Outcomes:

- Students will gain a deep understanding of the use of surveys for data collection in various research contexts.
- They will be equipped to design and implement high-quality surveys that will yield reliable and meaningful data.
- Students will develop critical thinking skills to analyze and interpret survey data confidently.

ABOUT WORKSHOP

Samata College is known for organizing informative IPR (Intellectual Property Rights) seminars. These seminars educate students, faculty on various IPR topics like patents, copyrights, trademarks, and designs. They likely cover the importance of IPR protection and the legal procedures involved. Attending these seminars can benefit participants by raising awareness of IPR and its role in innovation and creativity.

ABOUT THE PROGRAM

Dive into the future of intellectual property! This one-day workshop explores emerging trends in the IPR regime, equipping you with the knowledge to navigate the evolving legal landscape. Gain insights from experts and network.

TOPICS COVERED

Contents of the course would touch up the following aspects, to achieve the objectives:

- Global Framework of IPR
- emerging challenges
- finding solutions

PROGRAMME REPORT

Programme Name	A One-Day Workshop on Emerging trends on IPR Regime
Resource Person	Mr. M. Sagar, Assistant Professor, NBM Law College, Visakhapatnam Contact no: 8639121265, e-Mail Id: munthasagar@gmail.com
Date of Activity	12/12/2020
Organized by	Samata Degree College
Venue	Seminar Hall-1
No. of Students Attended	32

Objectives:

- **Raise awareness:** Enhance understanding of the latest developments and challenges in intellectual property (IP) regimes.
- **Explore key trends:** Delve into specific areas like trade agreements, artificial intelligence (AI), biotechnology, and traditional knowledge.
- **Analyze impact:** Discuss the economic, social, and ethical implications of evolving IP practices.
- **Promote dialogue:** Facilitate cross-disciplinary exchange of ideas and perspectives on IPR.
- **Identify solutions:** brainstorm potential approaches to address emerging issues and opportunities within the IPR landscape.

Topics Covered

- The Impact of Technology:
 - Explore how advancements in fields like Artificial Intelligence (AI) and Big Data are challenging traditional IPR frameworks.
 - Discuss the issue of ownership and protection of AI-generated creations.
