Report:

From the 27-09-2019 to 28-09-2019, the Training and Placement Cell of **Samata Degree College** held a special session on "**Communication and presentation Skills at work place**" in the seminar hall. Our principal, Dr Vijaya Ravindra, launched this initiative with a motivational address.

The Students acquired knowledge about the importance of communication skills at work place throughout the duration of these two days. Their verbal and communication skills play a significant role in fostering the development of their overall personalities. This development instills in them a sense of self-esteem, motivation, and positivity. It also enables students to become more self-aware, identify their strengths and weaknesses, and strive for continuous personal growth. In today's fiercely competitive world, individuals who possess effective communication skills, emotional intelligence, adaptability, teamwork, and critical thinking abilities are highly sought after. As our world becomes increasingly interconnected, refining these communication skills not only provides a competitive advantage but also leads to a plethora of opportunities in both personal and professional spheres. The program was benefited to 60 students

The Training and Placement Officer expressed gratitude, concluded the meeting

The pupils acquired knowledge about the importance of communication skills throughout the duration of these three days. Their verbal and communication skills play a significant role in fostering the development of their overall personalities. This development instills in them a sense of self-esteem, motivation, and positivity. It also enables students to become more self-aware, identify their strengths and weaknesses, and strive for continuous personal growth. In today's fiercely competitive world, individuals who possess effective communication skills, emotional intelligence, adaptability, teamwork, and critical thinking abilities are highly sought after. As our world becomes increasingly interconnected, refining these communication skills not only provides a competitive advantage but also leads to a plethora of opportunities in both personal and professional spheres.
