About us

Samata Degree College, Affiliated to Andhra University and Approved by AICTE was established in 1992 and has been offering holistic education. Samata offers BSc, BBA, BCA, B.Com, MSc. And MBA courses. Besides a robust teaching pedagogy, Samata Degree College is also a leader in research and innovation with recognised research cell affiliated to Andhra University. Focus is given to activities beyond academics which is evident from its infrastructure, extracurricular activities, and Sports recognitions. The placement at Samata Degree College is varied, with recruitment options both in corporates and public sector as well as entrepreneurship.

PROGRAM REPORT

Report of Training session for Non-Teaching Faculty on “Student accountability on online learning”

Professional Development Program was conducted at the Samata College on 22/10/2020 for Non-Teaching Faculty of Samata College on “Student accountability on online learning”.

The Objective of the program is to understand studies on accountability, quality, and student success in online education. It advances that accountability and quality are critical components for student success in online education. It concludes that there is a lack of empirical studies that examine the effects of these measures on student success.

Objective

- **Explore Innovative Synthetic Methods:** Understand and discuss the latest advancements in organic synthesis techniques, including novel catalytic processes and green chemistry approaches, to facilitate the efficient production of drug candidates.
- **Enhance Medicinal Chemistry Knowledge:** Delve into the principles of medicinal chemistry, emphasizing structure-activity relationships (SAR) studies and computer-aided drug design (CADD) techniques, to equip participants with tools for rational drug design.
- **Showcase Successful Drug Development Stories:** Highlight recent breakthroughs and case studies in organic chemistry-led drug discovery, providing insights into the challenges faced, strategies employed, and outcomes achieved.
- **Promote Interdisciplinary Collaboration:** Foster collaboration between organic chemists, medicinal chemists, and researchers from related fields, encouraging a holistic approach to drug development that integrates various expertise.
- **Discuss Future Directions in Drug Discovery:** Explore emerging trends and technologies in organic chemistry that are poised to shape the future of

About the FDP: Medicinal Chemistry involves understanding how to design compounds to cure or ameliorate diseases or syndromes. This FDP will focus on the strategies involved in discovering, inventing, designing and optimizing molecules for evaluation as new therapeutic entities. The key elements are developing molecules with an understanding of their photochemical parameters, biological and toxicological profiles, and formulation. This program will provide key highlights of drug discovery and development.

OUTCOME

- Novel and recent trends in drug discovery, development, repurposing and formulation.
- Gained technical expertise, and thus, facilitate keeping students well-informed with contemporary developments in drug discovery and development.

PROGRAM REPORT

Name of the Program: A One Week Faculty Development Programme (FDP) on “Cyber Security”

Organized by: Samata college

Date: 22/03/2021 to 27/03/2021

Resource Person:

- Ms. M. Divya
- Senior Faculty, Datapro Private Limited, Visakhapatnam.
- Contact No. 7995375232
- Email Id: divyamadanala2000@gmail.com

OBJECTIVES

- **Confidentiality:** Ensure that sensitive information is accessible only to authorized individuals or systems, preventing unauthorized access or disclosure.
- **Integrity:** Maintain the accuracy and reliability of data and systems by preventing unauthorized alterations, ensuring that information remains trustworthy.
- **Availability:** Ensure that information and systems are accessible and functional when needed, minimizing downtime and disruptions caused by cyber threats.
- **Authentication:** Verify the identity of users, devices, or systems to ensure that only authorized entities can access sensitive information or resources.
- **Authorization:** Grant appropriate access permissions based on user roles, responsibilities, and needs, limiting access to information and systems to the necessary level.

About the FDP: Cyber security is the body of technologies, processes, and practices designed to protect networks, computers, and data from attack, damage, and unauthorized access. Increased Internet penetration for applications such as e-Governance, e-Commerce, e-Banking, digital payments, eLearning, smart cities etc, has resulted in an exponential rise in sophisticated attacks on Information Technology (IT) infrastructure. In a bid to stave off e-criminals, organizations are increasingly investing in ramping up their digital

frontiers and security protocols, however, many are still put off by the costs, or by the bewildering range of tools and services available.

This has led to Cyber Security as an essential aspect to make aware of the challenges and methods to meet the new age attacks to secure our computers and networks. The objective of this FDP is to introduce fundamentals to promote a solution-based research approach in cyber security through expert sessions and hands-on training among faculty academicians, industry personnel and researchers.

OUTCOME

- **Data Protection:** Cybersecurity measures ensure the protection of sensitive data, preventing unauthorized access, theft, or manipulation of valuable information.
- **Risk Mitigation:** Organizations can identify, assess, and mitigate cybersecurity risks, reducing the likelihood and impact of potential cyber threats and attacks.
- **Trust and Reputation:** Successful cybersecurity builds trust among customers, clients, and stakeholders, enhancing an organization's reputation by demonstrating a commitment to safeguarding sensitive information.
- **Cost Savings:** Effective cybersecurity practices can lead to cost savings by preventing financial losses associated with data breaches, legal consequences, and reputational damage.
- **Cost Savings:** Effective cybersecurity practices can lead to cost savings by preventing financial losses associated with data breaches, legal consequences, and reputational damage.

Objective

- **Preventing Accidents:** Promoting general awareness of safety helps prevent workplace accidents, reducing injuries and potential harm to employees.
- **Creating a Healthy Environment:** Fostering awareness contributes to a healthier workplace, both physically and mentally promoting overall well-being among employees.
- **Compliance with Regulations:** Understanding safety protocols ensures that the workplace adheres to relevant safety regulations and standards, avoiding legal issues and penalties.
- **Emergency Preparedness:** Enhancing awareness prepares employees to respond effectively in emergencies, minimizing damage and ensuring a swift and coordinated response.
- **Cultural Shift:** Building a safety-conscious culture helps instill a mindset where employees prioritize and actively contribute to maintaining a safe working environment.
